

CCF APPROVED ONLINE COMPLIANCE MANAGEMENT SYSTEM

Introducing Skytrust... a user-friendly, online integrated software system, approved by CCF for hosting the CCF Code's Management System Document Suite (MSDS) - designed to help contractor businesses manage their compliance to the new CCF Code v10.

Skytrust is a cloud based integrated management system providing a holistic integrated management approach to your organisation's compliance and due diligence across all aspects of business. Hosting CCF's MSDS for comprehensive Code compliance, the Skytrust system offers user-friendly tools to assist with risk

management safety, quality, environment, inductions, assets, and plant management. Skytrust delivers a real time dashboard providing trending performance indicators promoting important business decisions to increase efficiency and productivity.

NOTE: The MSDS also includes a 'Gap Analysis' tool, designed to assist contractors transition from the current version of the CCF Code (v9) to the new v10.

The below rates include the CCF Code v10, MSDS and Skytrust system user license - coming together to provide your business with a dynamic, integrated Civil Contractor Management System (CCMS).
