

The Priority List

July 2020

The Infrastructure Priority List is a prioritised list of nationally significant investments. It provides decision makers with advice and guidance on specific infrastructure investments that will underpin Australia's continued prosperity. The Priority List is a live document and is updated regularly on our website.

Each proposal has been categorised according to its priority and location. Proposals are not ranked, but instead listed in alphabetical order

Category key and description

Asset Renewal	Replacing or refurbishing an existing asset to return it to its original level of service and extend its life.
Corridor Preservation	Protection and early acquisition of land needed for future infrastructure delivery, to save on land purchase and construction costs.
Efficient Markets	Lowering barriers-to-entry and fostering competition to make better use of resources and minimise costs for businesses and consumers.
National Connectivity	Improving the ease of movement from one part of Australia to another, for people, goods and services.
Opportunity for Growth	An option that, if implemented, will unlock latent demand and enhance the total production of goods and services in the Australian economy.
Remote Infrastructure	Delivery of quality services and infrastructure in remote areas of Australia to improve quality of life for residents and enhance opportunities for social and economic development.
Resilience	Enhancing the capacity and reliability of Australia's infrastructure networks and the Australian economy to regenerate after a particular shock and recover rapidly to the previous level of service or better.
Road Safety	Reducing the risk and number of crashes, injuries and deaths on Australia's roads.
Social Infrastructure	The provision of facilities, spaces, services and networks that support the quality of life and wellbeing of our communities. This includes a variety of sectors: health and aged care; education; green and blue infrastructure (assets that incorporate natural vegetation and waterways), and recreation; arts and culture; social housing; justice and emergency services.

Urban Congestion

Addressing excess traffic movements on transport networks in Australia's cities and regions.
